Islamic Studies: The focus of this class is to instill in children the love of God and His messengers and a desire to live uprightly according to the noble characteristics found in the Qur'an and Sunnah.

Qur'anic Studies: Focuses on a unique, holistic approach to Qur'an memorization, wherein students memorize Qur'an at their own pace while learning how to read it with proper recitation(tajweed). Students will also study Arabic to understand the meaning in English and apply it to their life in a positive way.

Arabic Language 1: Introductory level and focuses on visual and auditory recognition of the Arabic alphabet. Simple vocabulary such as names of animals, colors, objects, and numbers will be introduced.

Arabic Language 2: Students will learn phonetic reading, writing, and audio discrimination of long and short vowels. Thematic vocabulary groups will be introduced and students will begin to build phrases and sentences in Arabic.
